## CHILDREN, E. W. DOWSON AND A. B. Mc MILLAN.

It was necessary that the discussion be held in the court room as the judge's chambers were inadequate to accommodate the big crowd present. The arguments being made before Judge Abbott this afternoon are not in the nature of a hearing, but simply to assist the court in getting information on the case at issue. The contention of Mr. Field is that Perfecto Armijo is sheriff of Bernalillo county; that the commission of the governor has prima facie effect. The attorneys for Mr. Hubbell claim that no vacancy existed in the office at the time Governor Otero appointed Armijo to fill the vacancy, as Mr. Hubbell had not resigned or died, therefore the executive had no authority to act. In support of these contentions the attorneys were busy up to four o'clock citing authorities upon them.

## REPORT PUBLISHED ON COTTON CROP

New York, Sept. 5.—In their weekly cotton report Miller & Co. say: Reports from Texas and other states of the cotton belt indicate that the hot and dry spell continues. One peculiar result of this condition is the premature opening of the bolls, and the consequence is an early movement of the crop. So far it has not attained any great volume. The spinners are holding off in accordance with a concerted plan of action, while the farmers, on the other hand, while willing to sell, are not inclined to lower the price below 10 cents for the purpose of finding buyers. The spinners in England as well as in this country are enjoying great prosperity at present and they are not holding back because the prices are really too high or their trade is overdone. The price is, however, but merely as a protest against the supposed attempt of the Southern Cotton association to control the prices and interfere with the law of supply and demand.

## Cotton Crop Report Published.

## A FORMER JAIL BIRD KILLS REPUTABLE MINER

Butte, Mont., Sept. 5.—Over a hundred men this morning made a determined but unsuccessful attempt to lynch James F. Barnes, who late Sunday night shot and killed Patrick Hanley, as the result of a slight argument.

The jail was taken by storm, and the would-be lynchers, commanding the broad stairways leading to the doors of the court house with drawn pistols fired over the heads of the crowd at the police who attempted to enter. Inside, the mob battered at the big steel doors without success.

In the upper corridors were stationed a number of deputy sheriffs, with rifles and revolvers, and this tended to hold the angry crowd back.

The mob finally sent for dynamite, but these dispatched on the errand failed to return, and the mob, and the ringleaders abandoned the attempt and were persuaded by the police to disperse.

Barnes hails from Chico, Cal. He served two years in San Quentin prison for shooting Bert Cooper at Chico. Hanley was one of the most popular miners in Butte.
